

Family-Oriented Philosophy

Founded in 1967, Olivet Christian Nursery School offers an enriched curriculum which follows the Ohio Early Learning Content Standards and well prepares children for kindergarten in a play-based setting. Our teachers have a combined 136 years of teaching experience and offer a nurturing and loving learning atmosphere.

Olivet Christian Nursery School was established as a parent co-op that allows parents or caregivers to be involved in their child's classroom on average four to six times per school year. Today, we also offer a non-co-op option. Our school is open to all children age three to five, who are potty trained.

We are proud of the family involvement in our preschool. Through our co-op environment, parent-child events, school-wide seasonal festivities, and a variety of other activities, we strive to have the family involved in a child's educational journey.

"As a former college instructor of early child care teachers and evaluator of child care programs, I highly recommend Olivet. The administration is friendly, organized and dependable. The teachers are loving, energetic, and always on the lookout for learning opportunities for the kids. The co-op is great because you get to know your child's classmates."
